## DILIGENCE

FIRST & LAST NAME: \_\_\_\_\_

Diligence means "carried out with great care and consistent effort until the task is done." If we are going to be diligent and do the best job we can do, we need to P.A.C.E. ourselves. P.A.C.E. means: **P**repare, **A**ct, **C**ommit or **C**ontinue, and **E**valuate. Think of a job you recently got done or a skill you recently learned. How did you use "P.A.C.E." to do your best work and to show diligence? Fill out the table below!

I showed diligence when I worked carefully on: \_\_\_\_\_

**PREPARE:** What did you do to prepare to do this job well? What did you need?

---

---

**ACT:** What actions did you take to get this job done the best way you could?

---

---

**COMMIT/CONTINUE:** How did you stay committed and continue to work hard?

---

---

**EVALUATE:** How did you do? What could you do better next time?

---

---
