POWERFUL PROJECT

TEENS AND ADULTS

NOVEMBER 2012

CITIZENSHIP

As a citizen of our community, our country and of this world, what do you view as one of the biggest issues you'd like to see change in your lifetime? Does it have to do with equality, the environment, unemployment, health care, education or something else entirely? What makes this such a hot button issue for you and how can you lend your support, time, voice or contribution to making a change? What have you already done and what can you do in the future that can make a big impact?

"Great citizens refuse to stand quiet on issues that affect their communities. Stand up, stand tall, stand out, stand proud-- and you will find you will rarely stand alone."
